DETAILED ACTION

Claims 2 to 10 are pending in the application.

Receipt is acknowledged of the amendment filed June 18, 2010, which has been entered in the file.

Response to Amendment

The finality of the previous office action is withdrawn in view of the new rejections which follow.

Claim Objections

Claim 4 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only. Note that claim 4 is dependent on claim 2 and claim 1. See MPEP § 608.01(n).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2 to 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point

out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2, in the definition of D, where (e) is defined on page 3, an "or is needed after "aminocarbonyl".

In claim 2, variables R_8 and R_9 , which appear in the definition of R_2 , have not been defined.

In claim 2, where R_5 is defined, variable R_4 is included. However, there is no definition for R_4 . Note that R'_4 is defined above the R_5 definition.

The proviso at the end of claim 2 does not appear to be necessary since the group that corresponds to D_1 contains a substituted heterocyclic ring fused to a benzene ring (coumarin ring) but in the phenyl ring on page 2 for D_1 , (b) and (c) do not together form a ring.

In claim 3, page 6, line 6, "as defined above" should be changed to "as defined below".

In claim 3, variables Y, R_8 and R_9 are not defined.

In claim 3, where R_5 is defined, variable R_4 is included. However, there is no definition for R_4 . Note that R'_4 is defined above the R_5 definition.

The proviso at the end of claim 3 does not appear to be necessary since the group that corresponds to D_1 contains a substituted heterocyclic ring fused to a benzene ring (coumarin

ring) but in the phenyl ring on page 2 for D₁, (b) and (c) do not together form a ring.

In claim 4, the definition of D is broader than the definition of D₁ in claim 2. For example, variable D is defined as thiadiazolyl and triazolyl but only 1,3,4-thiadiazolyl and 1,2,3-triazolyl are found in claim 2.

In formula (IIIa) in claim 4, variables R³, R⁴ and R⁵ should contain subscripts so that the variables in formula (IIIa) match with formula (Ia) in claim 2. For example, "R³" should be "R₃".

In the last line of claim 4, the variables should contain subscripted numerals. For example, "R1" should be "R₁". In addition, "claim 1" should be changed to "claim 2".

Response to Arguments

Applicant's arguments, see Remarks, filed June 18, 2010, with respect to the rejection of the claims under 35 U.S.C. 112, 1st and 2nd paragraphs have been fully considered and are persuasive. The previous rejection of the claims under 35 U.S.C. 112, 1st and 2nd paragraphs has been withdrawn.

Allowable Subject Matter

Claims 5 to 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in

independent form including all of the limitations of the base claim and any intervening claims.

Claims 2 to 4 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

No claim is allowed.
